ON TO LHASSA.

The following telegrams give details of the progress of the Tibet mission to June

Kangina, June 24.—Un the 22nd a reconnaissance in the direction of Nehru, twelve miles from Kangma, was made by the Mounted infantry, when 600 of the enemy were discovered in a well sangured position. The enemy opened fire with jingalls at one and a half mile range. On the 123rd a force was sent out to dialodge them. consisting of two companies of Fusiliers, four Companies 23rd Ploneers, two guns of Native Battery and forty Mounted Infantry.

News just been received that Nebru has been evacuated and there are no signs of the enemy. It was reported two days agothat the enemy was advancing from the direction of Shigatai and contemplated an attack on this camp, but nothing has sincebeen heard of them.

Kangma, June 24.—The main body of the reinforcements remained at Kangma to-day to await the return of the column sent out yesterday which returned shortly after two, reporting no signs of the enemy at Nehru beyond smouldaring camp fires. The enemy's retirement was evidently hurried as a considerable quantity of breechloading ammunition and other articles were abandoned.

On the return march five men were seized with poison symptoms from drinking at a pool and one case proved fatal. The enemy are suspected to have poisoned the water asthey previously threatened. Aconite is very plentiful in the neighbourhood.

The Mounted Infantry and two Companies are established at the Red Gorgo through which the route to Gyantse lies. It is a narrow dangerous defile.

The telegraph is extended to Changra. The convoy from Gyantse has just arrived. It was sniped at five miles out of Gyantse.

Sactang, June 25 .- The British column has arrived at Sactang, lifteen miles from Kangma, passing through the Red Gorge without opposition. Captain Paterson's Mounted Infantry in the advance; came in contact with the enemy at Naini, six miles beyond this post, and found them entrenched in a village and mud fort 400 feet above. There were two cannon, with a range of eleven hundred yards. The enemy opened at 300 yards, wounding oneprivate severely. The enemy where then driven out of the position, but on our force retiring they re-occupied and repend fire. Naik Band Shah. 55th Cooke's Rifles, gallantly brought in a wounded comrade

under heavy fire. . The enemy attacked Palla village again last ni ht, having the previous night attempted to blow up the post, but were driven off.

Naini Monastery is the place which fired on our convoy yesterday Sepoy Mahmood, the wounded man referred to above, continued firing after being severely hit. Naik Band Shah then came to his rescue, and after bringing Malimood in went back for

his rifle. Allahabad, June 26 .- A considerable quantity of explosives have been sent up to the force in Tibet as the experience of the past few weeks has proved that they are needed for broaching walls and demolishing buildings. It has been found no easy mate ter to destroy the solid masonry which is

found in the forts and lamaseries. Simla, June 27 .- A telegraph wire has been carried right through to Grantse where an office was opened to-day. The headquarters of the Tibet Mission is now therefore in direct communication with

Allahabad, June 28 .- News from Tibet which reached Sim's on the 26th justant stated that three apparently responsible men from Lhassa had arrived at Gyantse but their instructions as to the negotiations have not transpied. The Dalai Lama has asked the Bhutan Government to internede on behalf of Tibet with a view to some settlement. A present of rich sliks from Lhassa has reached Colonel Younghusband. This particular form of gift represents the peaceful wishes of Tibet,

Simis. June 28. - General Macdonald arrived at Gyantse last Sunday with the whole of the reinforcing troops. Oa his way up he was opposed at the village Niani which he took. The British losses were four killed and six wounded, including Major Lye, 23rd Pioneers, who was severely wounded in the hand and also in the head, but is doing well. The enemy's losses were heavy. The Mission were found to be all well at Gyantse.

It appears that the Tibetan force which opposed General Macdonald at Niani was eight hundred strong.

The following news is issued officially General Macdonald arrived at Gyantse on the 26th instant. He had a small skirmich at Nieni on the 25th (in which one native soldier was killed), but met with consider able opposition at the same village on the 28th. The village was held by 8 0. Tibetans said to have arrived from Lhassa four days previously. The fight, lasted four hours. The Gyantse garrison cooperated by occupying the hills above Niani and cutting of the enemy's retreatthat way. The village was captured at 2 p.m., though several of the cusmy were left. hiding in buildings. . Our casualties were Major Lye, 23rd Ploneers, severely wound ded in the hand and slightly on the head y a sport cut; four native rank and file

and aix wounded. The enemy lost very

Gyantse, June 28 .- After Sunday's enungement at Nangyi, the enemy returned to the villages, and fired on the rearguard, who engaged and killed a number of them.

To-day the Mounted Infantry were sent lack to drive them out and found the place deserted.

There were many incidents during yester-There were many incidents during yester-day's fight. Lieutenant Turnbull, 23rd Pioneers, did a brave act rescuing a wounded man under hot fire from the loopholed walls. Colonel Burn, of the Pathans, had a harrow escape. His men having just made a loophole in the wall one of the enemy inside pushed his rifle through and fired, the Bullet passing between the Colonel and the man. Colonel and the men.

The fighting was from house to house and room to room, and the want of picks to break down the walls was felt. A number of the enemy secreted themselves in the inner village, from which they could not be dislodged. The Artillery fire, though very destructive to the mesonry, caused small loss of life, the Intantry doing the bulk of the work. To day the Fort has fired several rounds, and our Maxims from the Mission camp sniped the enemy going for water. It is said the enemy has three sources of water supply. The reinforcements camp is behind the Mission camp and

out of range of Gyantse Fort. Allahabad, June 29 .- Cholera is said to have broken out on the road from Siliguri up the Teesta Valley so the passage of troops along it may become difficult.

The 19th Punjab Infantry at Ferozepore, and one section of the 20th Mountain Battery at Abbottabad, have been ordered to Siliguri in the case more troops are required for Tibet.

The latest news from Tibet is that General Macdonald was to resume military operations on the 29th, which presumably means that he will clear the Tibetans from the

Hyantse jong and town. Gyantse, June 29. - To-day General Gyantse. All excepting Gompa were found unoccupied. The guns shelled the villages Chemists and Grocers. and also the big monastery of Tuchen, silencing the fire of two jingals.

The Mission force under Colonal Brander made a counter-demonstration against Gyantsu Jong, occupying two villages. The enemy replied vigorously with jinguls, but the fire was totally ineffectual. General Macdonald's camp moved across the river MACAO AND CANTON supply. All the guns in the big monastery are now harmless owing to the excellent

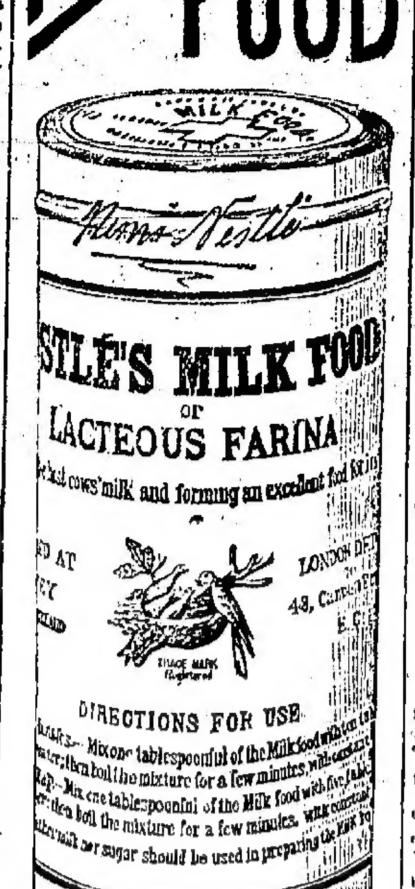

practice of our artillery. Later on the Gurkhas were sent to crown the heights behind the position, the guns clearing with shrapnel several big sangars. The Infantry advance on the village and monastery developed at 5.15. There was heavy firing, the guns shelling the monastory with common shell. Close on six o'clock the 8th Gurkhas carried the big tower, and shortly after the 49th Pathans worked through the villages and gained the heights on the right, the Artillery meanwhile making excellent shooting against the masonry tower to the right of the monastery, and the Pathans following the enemy into the houses and accounting for large numbers. The Engineers then blew up a large portion of the main building of the monastery with gun cotton. The Gurkhas and Pathans and also the Gunners did excollent work, the General

wasing his approval to be signalled.
When the Gurkhas stormed the big eastle the left of the position, the enemy harled stones, but were driven out, and rushed down the cliffis, hurling themselves in a panic over boulders to get to the houses for shelter. I he Gurkhas and Pathans destroyed the defences in the towers. and the position has been thoroughly cleared out. The work was done excellently, as now the whole of the villages and the main position north and north-west of Gyantse are thoroughly cleared and the enemy have had a useful lesson. Many lamas were directing the enemy's operations, one prominent figure treating our fire with contempt but subsequently being wounded. The Artillery made splendid shooting with the new ten-pounder, using common shells for the first time. The fire was most effective against solid masonry.

AHRONIC DIARRHOEA.-For several years during the summer months I have been subject to looseness of the bowels, which quickly ran into a very bad diarrhoes and this trouble was frequently accompanied with severe pain and cramps. I used to call on doctors for my trouble but it became so regular a summer affliction that in my search for relief, I became acquainted with Chamberlain's Colic, Cholers and Diarrhoea Remedy, which proved so effective and so prompt that I came to rely exclusively upon it, and what also, A one-Time order, like one blow of the happily surprised me was that while it almost instantly relieved the cramps and stopped the diarrhoon, it never caused constipation. Minor Operations.

On the 6th inst, the Japanese occupied Chingeirang, north-east of Saimachi, without loss, driving away 300 Russian cavalry. On the 5th inst. the Japanese repulsed 1,300 Russian cavalry who appeared in the vicinity of the north of Fengahuiling. The Japanese had four killed and three

Spades for the Russians.

A Chefoo dispatch reports that several natives of Liaotung are now in Chefoo purchasing spades, apparently for the Russian forces at Port Arthur. In comscquence of this the blacksmiths of Chefou and vicinity are at present exceedingly busy making spades of a certain pattern, samples of which were brought over by the natives in question.

Ravages by Russians.

It is reported that the Russians at Port Arthur, having consumed all the fodder stored up by them for their horses, have begun ruthlessly cutting down the corn and wheat planted by natives in the vicinity of Port Arthur, in consequence of which famine will be staring in the faces of the unlucky inhabitants of that part of the Lisotung Peninsula in the coming autumn.

Near Port Arthur.

Toxio, July 12: The Russians are still holding Henangtaikou on the west side of Port Arthur. Their main outpost on the cast side is located at Antseling, between Siaopingtae and Luugwangtapg.

Another Cruiser Torpedoed.

In Hongkong, bowever, they were allowed to join the two counts, but the

two forms of oath must be taken. The Attorney General, in opening, said that the men were charged on three separate counts; demanding money by menaces, causing a riot, and being gathered together for an unlawful assembly. The last two counts were practically the same, the last one being filed in case there should be some technicality which would prevent the pri- passengers use the line in considerable soners being convicted on the second count of rioting. He did not think, however, that the jucy would have any difficulty, after hearing the evidence, of convicting the prinonors on all three counts. The facts were that a man named Fong Yee Fat, a fisher man, lived at Taiho, on the Island of Lantan, and had been in the habit of a coring his boat near Taiho. There was a gang of Sir William Henry Houldsworth, maranding fishermen-fishing when it suited them and marauding at other times who had been in the habit of levying blackmail on the peaceful fishermen of Taiho. This year, however, prompted by the belief of safety the British Government ensures for its subjects, the fisherman, Fong Yee Fat. advised his fellow-fishermen to resist the extertion on the part of this marauding [Sir William Henry Houldsworth was gang. CANTON NOTES.

(From An Occasional Correspondent.)

THE DANTON HANKOW RAILWAY. CANTON, July 18.

The arrangements here for the convenience of passengers leave much to be desired. I do not refer to the comparatively comfortless trucks used as second and third class carriages, for these, after all, are quite as good or even better than the average Chinese is accustomed to, and each train now runs a first class car. The terminus, being on the side of the river opposite to Canton, necessitates that a conaiderable time is lost before the passenger reaches the station. In the olden days a man could call a slipper boat, from any point on the river's bank, and taking advantage of the tide could reach the heart of Fatshan in about two hours. The old 'Star Ferry' aunches are used to convey pastengers ac ross the river. But the most Eastern land. ing stage is near the Customs House, and reach it.
